Purpose of Academic Honesty Policy

The purpose of an Academic Honesty Policy is to ensure that our school procedures for this practice are transparent, fair and consistent. It describes the rights and responsibilities of all members of the school community so that everyone understands what constitutes good practice, and misconduct, and what actions are to be taken if there are transgressions.

What is Academic Integrity?

IB learners' work needs to exemplify the values of honesty and integrity, while remaining committed to the inquiry-action-reflection cycle. Academic honesty can be considered an anchor that leads learners to assume responsibility and ownership of the work produced by them and also acknowledge any external source that they might have used. In an age of rapid technology advancement, IB World Schools need to take care that learners do not plagiarise and/or collude with fellow learners and promote originality in every work that they produce. They also need to prevent learners from doing so to gain an unfair advantage.

At MIS, we value originality of thought and creation and aim to raise our students to be truly principled thinkers and reflective communicators. Our academic integrity policy is directed towards promoting and encouraging these traits in our community and upholding them in all our practices.

What is considered academic dishonesty?

While we do understand that the given conditions of academic dishonesty may not always be deliberate, we also want our community to be aware and conscious of what constitutes 'dishonesty' in their academic life and the kind of consequences it entails.

Although the following list is not exhaustive, academic dishonesty can, in general, take several forms:

1. **Plagiarism:** taking work, words, ideas, pictures, information or anything that has been produced by someone else and submitting it for assessment as one's own.
2. **Copying:** taking the work of another student, with or without his or her knowledge and submitting it as one's own.
3. **Exam cheating:** communicating with another candidate in an examination, bringing unauthorized material into an examination room, or consulting such material during an examination in order to gain an unfair advantage.
4. **Duplication:** submitting work that is substantially the same for assessment in different courses without the consent of all teachers involved.
5. **Falsifying data:** creating or altering data to one's advantage which has not been collected in an appropriate way.
6. **Collusion:** External/ internal help that can lead a student to be academically dishonest. This could be an external aid, a friend, a parent or a teacher.

Link between Academic Integrity Policy and Assessment Policy

Academic integrity policy is linked with assessment policy as it mentions different forms of academic misconduct related to internal and external assessment. Additionally, academic integrity policy mentions the consequences of academic misconduct in various forms of assessment. Another relation is in the fact that students will sign an undertaking and a contract that the work uploaded is the final version and is their own original work whether written/oral/video recorded and maintains honesty during all forms of assessments.

Also, as mentioned in the assessment policy teachers will only give feedback on the first draft of internal assessments, which is aligned with IB academic integrity guidelines.

Culture 3.1: The school implements and reviews an academic integrity policy that makes the school's philosophy clear and is aligned with IB guidelines. (0301-03-0100)

OBJECTIVES

The school encourages academic integrity in PYP by:

- discussing the meaning of 'appropriate help' regularly with students and parents
- ensuring parents and learners understand what the learner profile values mean
- making clear what will happen if submitted work is not the learner's own.
- Teachers encourage honest, creative **PYP work by:**
 - creating inquiry-based assessment tasks, which rely on a child's creativity and application of skills rather than mere fact collection
 - designing assessment criteria that value and reward the work required, rather than only the result
 - teaching ways to acknowledge others in their writing like the use of quotation marks
 - teaching students to reflect on what they have written so that they have the chance to realise if they have been dishonest

ROLES AND RESPONSIBILITIES

Pedagogical Leadership team

Culture 3.2: The school clearly describes in its academic integrity policy the rights and responsibilities of all members of the school community, what constitutes good practice and misconduct, and the actions that are to be taken if there are transgressions. (0301-03-0200)

Culture 3: 4 - Teaching and learning promotes the understanding and practice of academic honesty. Standards and Practice 2014

Procedures for the Reporting, Recording and Monitoring of Academic Misconduct

Culture 3.3: The school articulates responsibilities for teaching a variety of practices related to academic integrity, and reflects its five fundamentals: honesty, trust, fairness, respect and responsibility.

(0301-03-0300)

Culture 3.4: The school ensures that relevant support materials, resources and structures related to the academic integrity policy are implemented. (0301-03-0400)

Culture 3.5: The school monitors and evaluates the impact of the academic integrity policy to ensure that it regularly informs learning and teaching across the curriculum and that school's procedures are transparent, fair and consistent. (0301-03-0500)

Any student reported for any type of academic misconduct to the Head of School along with PYP Coordinator and Primary School Coordinator will be involved in an investigation process to determine the student's intent. MIS recognizes that there are different levels of severity regarding academic misconduct. The investigation will take into consideration the age-appropriateness of the student and consequences will reflect the level of intent. The findings from the investigation will be noted as an academic memo into the student's personal file for future reference.

Rights of the Student in the Event of a Breach of Academic Integrity

If a student is suspected of a breach of academic integrity, then she has the right to: A student who is suspected of academic misconduct has a right to:

1. Meet with the School Principal regarding the incident to share her perspective
2. Redo the assignment under the guidance of the teacher, or the Librarian
3. Request to have a meeting with the School Principal and her parents together
4. Appeal a decision upholding academic misconduct with MIS leadership team.

Consequences of Academic Misconduct

Academic dishonesty is treated as a learning opportunity. Instances of verbatim copying or lack of citation are considered first draft material, and students are taught or re-taught the skills needed to rework the material in their own words and to cite quotations. Self-evaluation and teacher explanations of rubrics provide methods for reflection on a student's ability to do academically honest work, and goals will be set by the student or together with the student and teacher to improve skills and attitudes leading to academic integrity. Malpractice is generally considered to be the result of a lack of language and/or research skills and is addressed accordingly. In the event that a student with

proficient language skills willfully and deliberately continue malpractice, the following can occur:

1. The student may be asked to redo the work, but she may not receive full credit for the work
2. The student may have a meeting called between the teacher, parents and student, and ultimately between the principal and parents
3. In extreme cases the student may be placed on an academic contract or receive in-school/off-campus suspension.

Dissemination of information of the policy to all stakeholders

- By emails to all the parents/guardians and all the other stakeholders
- On the school website www.misindia.net
- On the ERP Portal
- On ManageBac
- In the school handbooks

Display of policy within the school and boarding houses

- On the display boards in the school corridors, classrooms, reception area
- On the display boards in the school cafeteria and boarding houses

As advocated by IBO we at MIS ensure that the Academic Integrity Policy is implemented, understood and supported by the entire school community. Parents are informed about the policy through parent meetings, the school website handbook, curriculum booklet and Parent-Teacher conferences.
